Here are a few Jokes to laugh

1. Can a kangaroo jump higher than a house?
Of course, a house doesn't jump at all.

2. Doctor: "I'm sorry but you suffer from a terminal illness and have only 10 to live."

Patient: "What do you mean, 10?"

10 what? Months? Weeks?!"

Doctor: "Nine."

3. A man asks a farmer near a field,
"Sorry sir, would you mind
if I crossed your field instead of going around it?
You see, I have to catch the 4:23 train."
The farmer says, "Sure, go right ahead. And if my bull
sees you, you'll even catch the 4:11 one."

4. My dog used to chase people on a bike a lot
. It got so bad, finally I had to take his bike away.

5. Mother: "How was school today, Patrick?"
Patrick: "It was really great mum! Today we made explosives!"
Mother: "Ooh, they do very fancy stuff with you these
days. And what will you do at school tomorrow?"
Patrick: "What school?"

Asparagus Cream Pasta

Ingredients

1 bunch Asparagus
142ml Tub double cream
2 Garlic cloves,
peeled, but left whole
50grams Parmesan,
half grated, half shaved
250grams Tagliatelle

Directions

1. To prepare the asparagus, cut off and discard the woody ends, then neatly cut the tips away from the stalks. Keep the tips and stalks separate. In a small saucepan bring the cream and garlic to the boil. Take off the heat, remove the garlic, then set the pan aside.
2. Cook the stalks in boiling salted water for about 4-5 mins until tender, drain, then tip into the cream with the grated parmesan. Blitz with a hand blender until smooth.
3. Cook the pasta according to pack instructions, then throw in the tips 2 mins before the end of cooking time. Gently reheat the cream, drain pasta, then tip into a bowl with the cream. Toss, divide into pasta bowls, top with parmesan shavings and serve.

MathSphere

Sudoku

Fill in the puzzle so that every row across, every column down and every 3 by 3 box contains the numbers 1 to 9.

Medium Puzzle 2

	6			7	2			1
8			1	3	6	5		
		3	4					
2			6	5			3	
		6			7		1	
			2			8	6	4
9		7		8	4			
		8			9		7	
			7	2	1		8	3

Clues:

1. Look for a 1 in the centre square block of squares
2. Look for a 4 in the centre block of squares
3. Finish the middle column (column 5)

Horoscope Virgo (24.08. - 23.09.)

The virgin and her characteristics at a glance

The typical maiden is analytical, hardworking, gentle, modest, honest, precise, hardworking, flexible, caring, adept, thorough, intelligent, smart, eager to learn, logical, methodical, objective, orderly, dutiful, practical, rational, realistic, relevant, careful, economical, structured, considered, reasonable, versatile, purposeful, restrained and reliable.

Weaknesses: anxious, hypochondriac, intolerant, petty, critical, cool, suspicious, nagging, pedantic, perfectionist, opinionated, dissatisfied and jammed.

Love and partnership:

A very active and down-to-earth phase awaits you.

Venus and Mars make you flirtatious and charming, but at the same time look under Saturn but with new contacts also on the fact that they fit together. A certain acquaintance can have a future. Virgos in a relationship are unusually spontaneous and enterprising. A good time to forge plans for the future.

Occupation and Finance:

Business planet Mercury is in your zodiac sign and will make you until 22.9. professional and financially high-flyer. Saturn also favors long-term projects and lucrative investments. A small shopping tour is nothing in the way.

Health and fitness:

The sun in your sign provides you with good mood and power. Until 23.9. It is especially worthwhile to invest in your fitness. A more intense workout and a healthier diet work wonders.

Cancer Prevention Diet

How to Lower Your Risk with Cancer-Fighting Foods

Woman reaching for grapes

While there's no magic food or diet guaranteed to cure or prevent cancer, lifestyle factors—including your diet—can make a big difference in lowering your risk of developing the disease. And if you are currently battling cancer, adopting the right diet now can help maintain your strength and boost your emotional wellbeing as you go through treatment. By avoiding foods that increase your risk of cancer and eating more of those that support your immune system, you can better protect your health and boost your ability fight off cancer and other diseases.

What's the link between cancer and diet?

Some cancer risk factors, such as genetics and environment, are out of your control, but research suggest that about 70% of your lifetime risk of cancer is within your power to change, including your diet. Avoiding cigarettes, limiting alcohol, reaching a healthy weight, and getting regular exercise are all great steps for preventing cancer.

Adopting a healthy diet can also play a vital role.

What you eat—and don't eat—can have a powerful effect on your health, including your risk for cancer.

While research tends to point to associations between specific foods and cancer, rather than solid cause-and-effect relationships, there are certain dietary habits that can

have a major influence on your risk. For example, eating a traditional Mediterranean diet rich in fruit, vegetables, and healthy fats like olive oil can lower your risk for a variety of common cancers, including breast cancer. Conversely, a diet that includes

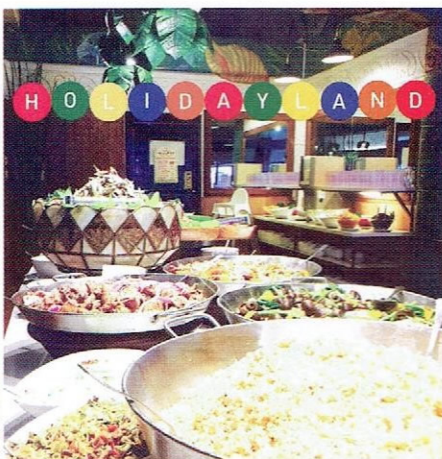

a daily serving of processed meat increases your risk of colorectal cancer.

If you have a history of cancer in your family, making small changes to your diet and behaviors now can make a big difference to your long-term health. And if you've already been diagnosed with cancer, eating a nutritious diet can help support your mood and strengthen your body during this challenging time.

Simple ways to build your cancer-prevention diet

To lower your risk for many types of cancer—as well as other serious disease—aim to build your diet around a variety of antioxidant-rich fruit and vegetables, nuts, beans, whole grains, and healthy fats. At the same time, try to limit the amount of processed and fried foods, unhealthy fats, sugars and refined carbs you consume.

CROSSWORD

You should Remember these Wisdom Sayings

Every person is a new door to a different world.
Content makes poor men rich; discontent makes rich men poor.
Start loving yourself and you won't care who hates you.
I wasn't born to be perfect. I was born to be real.

Sometimes the smallest step in the right
direction ends up being the biggest step of your life!

Sometimes you miss the memories, not the person.
Love me or hate me, but don't try to change me!
Never run faster than your angle can fly.
Don't wait for the right person to come into your life.

Make yourself the right person to walk into someone else's life.
I have failed over and over in my life and that is why i succeed.
You only live once, but if you work it right, once is enough.

Love sayings for every Day

The day I will stop
loving you, is the
day I will close my
eyes for ever!

Love is not about how
much you say "I
love you", but how
much you can
prove that it's true.

Give your smile
to everyone,
but give your love
to only one!

Wherever you are, whatever
you do, remember
this allways: I Love You!

Got no clue what I should
do, but I'll go crazy if
I can't get next to you!

Love is like a
mountain:
hard to climb,
but once you get
to the top the
view is beautiful.

The alphabet starts
with abc. The numbers
starts with 1,2,3.
Love starts with
you and me.

It's better to
have loved and lost,
than never to
have loved at all.

We come to love not by
finding a perfect person,
but by learning to see
an imperfect
person perfectly.

Sunflower seeds from Spain, 250 grams. These seeds are very tasty and healthy. Enjoy them for every occasion. Please Order it early as the stock is fast TXT or Call me in this # 09461386987. Like any food, sunflower seeds contain carbohydrates, proteins and fats. Sunflower seeds are healthy because they consist of half fat, one-fourth protein and one-fifth carbohydrates. 90 percent of the fat is unsaturated fatty acids. Fats, carbohydrates and proteins are joined by vitamins and minerals. Especially the vitamins B1, B2 and B6 as well as the vitamin A are abundant. In addition, magnesium, calcium and carotene help keep sunflower seeds healthy. Why do the ingredients of the sunflower seeds make you healthy? Sunflower seeds are healthy because unsaturated fatty acids do not produce cholesterol. Although the body needs cholesterol, too much bad LDL cholesterol make doctors and scientists responsible for many diseases. These include damage to the musculoskeletal system, inflammation of the intestinal tract and asthma. Sunflower seeds give the body healthy fat. Calcium serves for the undisturbed building of bones and teeth. The human muscle needs magnesium for the movement. And without vitamin B, the synthesis of blood is impossible.
