# 10 golden rules to help you take care of your skin on an everyday basis.

Some habits are essential in order to care for your skin and have a radiant complexion all year long. Whatever your skin type, here are the ten essential habits !

## Rule 1 Specific care for each skin type

In order to take care of and respect your skin, first and foremost make sure to choose products specially designed for your skin type.

Dry skin does not have the same needs as oily skin.

## Rule 2 Pay special attention to fragile areas

Some parts of your face (eye contour, lips, etc.) have particularly fine, fragile skin. They need specific care, especially the eye contour and the lips.

These areas of your face are more sensitive and deserve special attention.

## Rule 3 Gentle cleansing

Taking care of sensitive skin begins with make-up removal. In order not to stress your skin and to respect its natural balance, make sure to use a pH-neutral make-up remover, specially formulated to cleanse your epidermis gently.

## Rule 5 Exfoliation is indispensable

Use a suitable exfoliation treatment once or twice a week. It must be effective yet gentle and respectful. Choose a pH-neutral exfoliation product, which is perfect for smoothing and purifying the skin while respecting its natural balance.

## Rule 6 Moisturizing is essential

The dermis is made up of 70% water and the epidermis, 15%. In order to keep the skin well moisturized, it is important to choose daily moisturizing skin care products that balance the level of water within the skin. You may also use a moisturizing mask regularly, removing the excess with a spring water spray.

## Rule 7 Preferably hypoallergenic make-up

To avoid the risk of allergies linked to the use of products that are not suited to your skin, choose hypoallergenic make-up specially formulated to meet the needs of all skin and eye types, even sensitive skin.

## Rule 8 Sun protection

Whatever the season, choose daily skincare products that include solar filters. They reduce the harmful effects of the sun, which accelerates skin ageing.

## Rule 9 Watch out for external stress

Pollution, smoke, stress... All these have harmful effects on the skin. Use skincare products to protect your skin against these daily stresses before leaving the house and cleanse your skin thoroughly when you come home in the evening.

## Rule 10 Don't neglect the lips

As soon as you feel the need, use a restorative cream for the lips. Do not hesitate to reapply to this particularly fragile area as often as necessary.

# You should Remember these Wisdom Sayings

„A life spent making mistakes is not only more honorable, but more useful than a life spent doing nothing.“

„Anyone who lives within their means suffers from a lack of imagination.“

„Believe that life is worth living and your belief will help create the fact.“

„Don't part with your illusions. When they are gone, you may still exist, but you have ceased to live.“

„Everyone is trying to accomplish something big, not realizing that life is made up of little things.“

„I have found that if you love life, life will love you back.“

## Love sayings for every Day

Love seems to be the most beautiful part of a soul.  
Any hardship in life can be cured by love

No matter how many riches a man attains, he could never be a happy man without love in his heart.

We all have to die at one point but dying without love seems to be the worst death.

Love is the world's most universal language that anyone can speak.

To have loved and lost is better than not having loved at all.

Love crosses borders and unites nations.  
Only love can defeat hate.

A great wide world it might be but still love is a universal language.

You may be happy also with others, but remember always my heart.

Don't be scared of anything, cause my Heart will be with you.
