Angeles City

Angeles City (Tagalog: Lungsod ng Angeles, Kapampangan: Ciudad ning Angeles) is a city on the Philippine island of Luzon. It is located approximately 80 (road) km northwest of the capital Manila on the North Luzon Expressway (NLEX, connection to Manila) and on the Subic-Clark-Tarlac Expressway (SCTEX, connection to Subic Bay in the southwest and Tarlac in the north).

Neighboring communities are Mabalacat in the north, Mexico in the east, San Fernando and Bacolor in the south and Porac in the south and west. Approximately 26 km west of Angeles City is the volcano Pinatubo, about 16 km east-northeast of the long-extinct volcano Mt. Arayat. (Distances and directions refer to the central and well-known district of Balibago.) The district "Marisol Village" has since been renamed "Ninoy Aquino". Metro Angeles is the fourth largest of twelve metropolitan areas in the Philippines with 915,365 inhabitants (2007) on an area of 581.07 km².

History:

In 1796, the mayor of San Fernando, Don Angel Pantaleon de Miranda, together with his wife and some supporters, founded a new settlement, which got the name Kuliat because of the local wine. This settlement was initially a district (barrio) of San Fernando, until 1829 it was renamed and independent in Angeles. The city remained relatively small until the end of World War II, then the population increased sharply. During the Vietnam War, Clark Air Base was the main supply base in Southeast Asia. The US Air Force was still stationed in the city until 1991.

Eruption of Pinatubo and effects:

On June 15, 1991, around 900 people were killed in an eruption of the Pinatubo volcano and a quarter of a million people lost their homes. The US Army then cleared both the base in Angeles City as well as the Subic Bay. The soldiers stationed there left the country.

The Philippine Senate did not extend the 1991 expired leases (military base agreements) with the United States then. The economy of Angeles City was weakened in the long term by the infrastructure destruction and the lack of economic power of the military base.

Current situation:

The former Air Base has been converted into an economic zone; the airfield became the Clark International Airport, which was named after Diosdado Macapagal in the meantime.

Tourism is on the rise again, although both prices and crime rates are very high.

Entertainment district:

In addition to the so-called Jeepneys and countless fast food restaurants, the Americans in Angeles City have left a huge entertainment district especially in the districts of Malabanan and Balibago. On Fields Avenue, gogo bars, pubs, beer gardens and hotels line each other for about 2 km. The biggest boom was in 1992, when Manila's governing mayor closed all bars in the Ermita entertainment district. These partially moved to the 80 miles away Angeles City. The crime is high. It is estimated that more than 30,000 women work in the city's clubs and bars. The former US Air Force Base "Clark Air Base" has been converted into an economy zone. The "Clark International Airport" produced more than 1,500,000 passengers in 2017.

Subic Watershed Forest Reserve:

The Subic Watershed Forest Reserve is located in the northwest of the province of Bataan and in the south of Zambales province on the island of Luzon in the Philippines. It covers an area of 6,261 hectares, from the northwest slopes of Mount Natib to Subic Bay. It originated with the entry into force of Republic Law 7227 in 1992. The reserve is adjacent to the Subic Bay Freeport Zone in the northwest and was part of the United States Naval Base Subic Bay until the departure of the US Navy. In the southeast, the Bataan National Park joins and it belongs to the Zambales biosphere zone. The Subic Watershed Forest Reserve is located in a varied natural setting that includes grass savannahs and evergreen lowland rainforests. The forest areas of the nature reserve and the surrounding areas comprise approximately 9,800 hectares, in which a total of 745 different plant species were found through investigations. In the peripheral areas of the nature reserve there are agricultural areas that alternate with built-up areas.

However, the forests are under serious threat from slash-and-burn and illegal logging. The eruption of Pinatubo in the north in 1991 caused lasting damage to the forests in the national park. The reserve provides habitat for the endemic giant bark rats (*Phloeomys pallidus*) in the Philippines, the gold crown flying fox (*Acerodon jubatus*), the Philippine deer (*Cervus mariannus*) and the Philippine pestle (*Sus philippensis*).

Noteworthy among the avifauna are the Philippine duck (*Anas luzonica*), the Philippine hooded eagle (*Nisaetus philippensis*), the red-crowned cockatoo (*Cacatua haematurus*), the Luzon-winged parrot (*Prioniturus luconensis*), the striped hawk (*Bubo philippensis*), and the Manila parrot damsel (*Erythrura viridifacies*)

Chocolate Hills

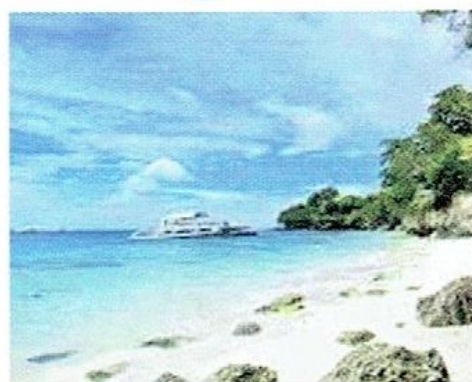

The Chocolate Hills are a geological formation in the Bohol province of the Philippines. There are at least 1,260 hills but there may be as many as 1,776 hills spread over an area of more than 50 square kilometres.

They are covered in green grass that turns brown during the dry season, hence the name

Elevation: 120 m Area: 50 km²

Did you know: The Chocolate Hills are conical karst hills similar to those seen in the limestone regions of Slovenia, Croatia, northern Puerto Rico, and Pinar del Río Province, Cuba.

Panglao Island

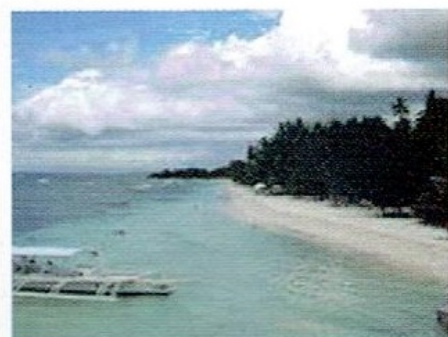

Panglao is an island in the north Bohol Sea, located in the Central Visayas region of the Visayas island group, in the south-central Philippines.

Area: 80.5 km² Province: Bohol

Island groups: Malay Archipelago, Visayas

Did you know: Panglao island is located southwest of the island of Bohol and east and south of Cebu.

Alona Beach

The Alona Beach is one of the most famous tourist spots in Bohol province, Philippines, because of its white sand and the rocky cliffs. The beach is located near a "house" reef, where corals and colorful fishes can be seen even without diving equipment. It is a popular scuba-diving and snorkeling spot.

Clear water with reefs make this lively beach a popular destination for diving & snorkeling.

Horoscope Taurus (21.04. - 20.05.)

The character of the bull ascendant

The Venus of the Morning is its character ruler and makes the bull ascendant to a meek and sensual contemporaries. The bull-ascendant looks at his world from thoughtful, meek eyes. Like his animal name giver, he prefers to take it easy, but can also get into gear, if you want to annoy him. Prudent and meek, the bull-ascendant feels his way. He is in no hurry; on the contrary. He seems to have all the time in the world. This is very pleasant for his fellow human beings because they do not feel pressured by him. His down-to-earth and reliable character and his relaxed charisma are important basic ingredients of his recipe for success. People trust him right away - rightly so, because a bull ascendant never lets you down. The creative and artistic potential of Belle's beauty planet Venus easily replaces his somewhat inflexible, conservative mindset.

Love & partnership

At the beginning of the year, your typical bull-like patience will be put to the test. Your sweetheart does not want to be like you, that always makes for clash. Throw your stubbornness overboard and focus on what connects you two. Show yourself ready to talk and compromise, take a step towards your treasure, then emerge strengthened from this relationship crisis. From May 15, the thunderclouds dissolve and open the view to a pink love sky. They are on the same wavelength as your sweetheart - and singles flirt successfully. It will be harmonious until mid-September, between 14th September and 7th October. It is a bit of a scary thing, but from the 8th of October you and your sweetheart are once again a heart and a soul. Taurus singles should use their great charisma and their great flirting opportunities. The chance to end singles is especially big around the 26th of November: You might find your dream partner. Liierte take the next step in the relationship. Whether house building, wedding or baby wish - Venus supports all future plans.

Occupation & Finance

Usually you prefer to rely on the well-tried, but with surprise planet Uranus in your own sign, you too are ready to leave the beaten track from 6 March. From April to October, your will to change is particularly strong, you are breaking new ground professionally, seeking a change of job or department or actively promoting a higher position - and your courage will be rewarded. Special extra: From December 2, Glücksplanet Jupiter helps you to realize a heart project. From a financial point of view, you will be able to make ends meet in 2019. Uranus helps you to find interesting new sources of income, while Jupiter helps you to find savings potential. You can save money without sacrificing comfort.

Health & Fitness

At the beginning of the year, you will be plagued by small Zipperlein, which are from 14 February but quickly cured. Mars in its own sign provides you with plenty of energy, makes you persevering and tough. You have the power to fully embrace the challenges of the year. Whether strenuous projects or sweaty sports - what you make up now, you create with playful ease. Since Uranus occasionally crosses over from 6 March and increases the risk of accidents, you should avoid extremes throughout the year. Rest as soon as you realize that it will be too much for you - and just indulge in sweet idleness. Your personal feel-good formula for 2019: a mix of indulgence and relaxation.

Puerto Princesa: Full-Day Island Hopping Tour in Honda Bay

Beat the beach in style on this tour of the islands and reefs of Honda Bay from Puerto Princesa. Honda Bay is considered the last frontier of the Philippines because of its rich biodiversity.

Highlights

Enjoy a day in the sun while swimming, snorkeling and sunbathing Experience the marine life in Honda Bay up close Enjoy a rich lunch on one of the islands

Description

Experience the beauty of sea life in Puerto Princesa. Honda Bay is located on the eastern shore of Puerto Princesa and is home to a variety of small islands with resorts and beaches. It is also home to a variety of fish, corals and giant clams. Start your 30-minute drive from the city to Barangay Sta. Lourdes, where the Honda Bay Wharf is located. Before boarding your boat, make a stopover to rent your snorkel, aqua shoes and swim fins. Once on board, you will be taken to 3 different locations, each with their own unique attractions and special features.

First is Luli Island. This sandbank got its name from the Filipino 'Lulubog at Lilitaw', which means to appear and disappear on the water. The sandbar disappears at low tide and appears at low tide. It has cream-colored sand and clear, blue water that invites you to swim and relax. There is a cocktail bar where you can taste the local blends. There is a diving platform where you can jump into the water.

MathSphere

Sudoku

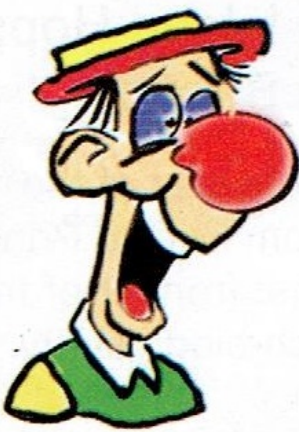

Fill in the puzzle so that every row across, every column down and every 3 by 3 box contains the numbers 1 to 9.

			5	4	2		1	9
1					6			
	2	9				6		
				9			6	4
	3	2	6		7		9	8
				3				
2		7		1	8		5	
					9		3	
		3	7	6	5	9		1

Help:

- Row 5 column 5 can only be 5
- Row 4 column 6 can only be 1

Here are a few Jokes to laugh

A girlfriend and boyfriend lying in bed cuddling:

"Am I your dream woman, Jake?" "You are much more than that"

-(Girl giggles) "How much more, Jake?" "About 40 pounds."

One woman to the other:

- Life is so short. What would you do if you sent your husband to bring potatoes up from the cellar and he'd fall down the stairs and broke his neck, just like that?
 - Pasta I guess.

Police stops a man in his car. Police: Sir, what's in that bottle?

-Man replies: Water. Police: [sniffs] It smells like wine!

-Man: Oh no, Jesus did it again!

Wife shouts: "Ow!!!!" Husband: "Did you burn yourself?"

-No! Where I come from, we greet the food fresh from the oven with a traditional dance and loud singing!

I asked my new girlfriend how many men she'd had before me.

-She said not to worry, she could count them all on one hand.

-Unfortunately, this was when I noticed she's holding her cell phone with a calculator app open.

The teacher says to little Johnny: „When your father sees this report, his hair will go all grey!"

Johnny shrugs: "Nice! That will make him very happy. He's been bald for years."

Prevent Arteriosclerosis !

Arteriosclerosis is often referred to as arteriosclerosis or arterial hardening and is one of the leading causes of death today! But you can very well prevent atherosclerosis. People with sedentary or elevated blood lipids (cholesterol), diabetics and smokers have a particularly high risk of atherosclerosis. Sport and non-smoking therefore protect against arteriosclerosis. But food and some nutrients can also effectively prevent arteriosclerosis.

How can arteriosclerosis be prevented?

Atherosclerosis is difficult to treat. However, atherosclerosis can be prevented very well with certain natural measures.

Atherosclerosis causes deposits of blood lipids, such as LDL cholesterol, and other substances on the inner walls of the arteries. There are inflammatory reactions that damage the artery. The deposits, the so-called arteriosclerotic plaques, harden over time and assume a cement-like consistency.

The arteries lose their flexibility and become ever narrower, whereupon the oxygen supply of the body is increasingly restricted. At the same time, the risk of thrombosis, angina pectoris, strokes and heart attacks increases.

Prevent arteriosclerosis with the diet

So you can see that you can very well prevent arteriosclerosis with your diet and with targeted nutritional supplements:

Drink pomegranate juice regularly.

Eat plenty of spinach, beetroot and blueberries.

Use sesame, sesame or sesame oil in the kitchen.

Whenever available, enjoy fresh sauerkraut (preferably raw).

Take as a dietary supplement a high-dose vitamin B complex,

vitamin C (acerola powder), garlic

(in capsules) and curcumin (the active ingredient from turmeric) also in capsules (eg, curcuperin).

If necessary, and in consultation with your doctor, take nattokinase.
